Web Client

Your Essential Business Process Work Seamlessly
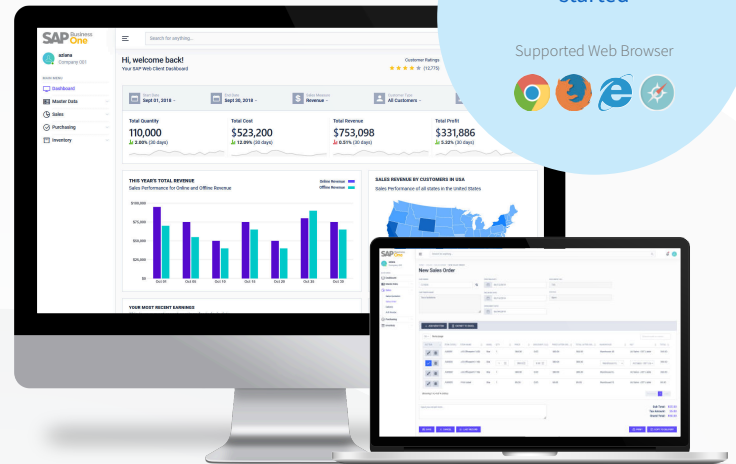

Runs in Web

You get the best of all worlds with the Web Client

The SAP Business One Web Client is an alternative to the client-server front-end user interface (UI) of the SAP B1 which includes at least the most important SAP functions and modules.

The SAP B1 Web Client brings you the best of all worlds. it reads and writes from and to the same company database you use with SAP Business One. Web Client is built to be easy to navigate, giving customers a seamless, advanced user experience. Enjoy customized pages and data, set to users preference, robust search and filtering.

You only need a web browser to get started
